WORK EXPERIENCE

Senior Software Engineer Strasz Assessment Systems

06/2020 - Present

Princeton, NJ

- Led engineering team of 8 engineers to build and deliver Assessment systems using Angular 11, .Net Core, and Cosmos DB.
- Improved the performance of the CPA exam by 7%, which is delivered hundreds of thousands of times annually.
- Orchestrated and Developed Excel spreadsheet experience in CPA Exam using Grapecity's SpreadJS.
- Designed and Implemented Search feature by creating a custom analyzer using Azure Cognitive Search Index.
- Participated in formal internal design reviews of proposed products and components, providing input on potential technical improvements.

Software Engineer AmeriHealth Caritas

01/2019 - 06/2020

Philadelphia, PA

- Led the client side team to build Single Page Applications using ReactJS, Redux, Bootstrap, and HTML.
- Developed RESTful APIs and microservices using Node.js and Express.js, improving backend performance by 30%.
- Created custom Signing Workflow, maintained user accounts and templates in Adobe Sign.
- Collaborated with stakeholders during development processes to confirm creative proposals and design best practices.

Full Stack Developer Ramky Enviro Engineers Ltd

08/2014 - 07/2017

Hyderabad, India

- Completed assignments across 2 simultaneous projects while maintaining exceptional work quality.
- Worked with PassportJS and JSON web tokens for authentication using Node.js.
- Created custom dashboards and data visualizations using D3.js and Highcharts.js, improving data insights and decision-making capabilities by at least 40%.
- Developed continuous integration tool to streamline deployment.

Advanced Inplant Training Associate Bharat Sanchar Nigam Limited

06/2014

Hyderabad, India

- Worked on Operating System structure and essentials, and overview of Windows Servers.
- Designed and implemented web portal with responsive User Interface using Bootstrap.
- Got exposure on Networking elements, Basic Router Configuration, Broadband, IP fundamentals and Cyber Security.

EDUCATION

Master of Science in Applied Computer Science Northwest Missouri State University

SKILLS

Frontend Development - Proficient in Angular, Vue and React, adept at implementing responsive designs, managing state, and integrating with backend APIs.

Backend Proficiency - Experienced in leveraging Node.js and .NET to develop efficient and scalable backend solutions, ensuring seamless integration with frontend applications.

Web Technologies - HTML, CSS, JavaScript, TypeScript, Bootstrap, LESS, SASS, AJAX, XML, JSON, Webpack, npm, yarn, Nuget, pip.

Databases - CosmosDB, MongoDB, RavenDB, Microsoft SQL Server.

Version Control - BitBucket, Git, Azure DevOps Server/Visual Studio Team Foundation Server.

CI/CD - Azure DevOps, Jenkins, GitHub Actions, Kubernetes, Docker.

Microsoft Azure - Azure Active Directory, Azure Key Vault, Azure App Service, Azure Functions, Synapse Analytics, Azure Data Lake Storage, Azure Service Bus, Azure Cognitive Search.

CERTIFICATES

Oracle Certified Associate, Java SE 7 Programmer. [🔗](#)

Technical Paper presentation at Infoquest 2014.

PERSONAL PROJECTS

Socio Analyzer (2018)

- Performed sentiment analysis on stream of tweets related to 'metoo'.
- Used python NLTK and TextBlob for Natural Language Processing (NLP) and sentiment calculation respectively with final accuracy of 79 percent.

Conference registration system

- Developed single page application using Angular, MongoDB, Express, Node.js.

Northwest Theatre Ticket Booking

- Developed Single Page Application using React, React Router, Redux, Bootstrap 4, Sass, and Webpack.

Enhancement of Cloud using Fog computing by Administering Decisive Latency and Portability with Decoy Technology.

- Developed a project that demonstrated a 9% improvement in cloud computing latency through the utilization of fog computing.

ORGANIZATIONS

Excellence Leadership Academy.

International Association of Neuro Linguistic Psychology.
